4th International Workshop on Marine Litter Monitoring, Removal and Circular Economy

Solutions for the Mission Restore our Ocean and Waters Community of Actors back 2 back with the BlueMissionMed Italian HUB

May 30, 2024 | Venice

The 4th International Workshop on Marine Litter Monitoring, Removal and Circular Economy event will take place on May 30, 2024, at the [CNR-ISMAR](#) headquarters in Venice within the [Venice International Boat Show](#).

The event, co-organized by [BlueMissionMed](#) CSA and the [MAELSTROM](#) projects, will showcase and demonstrate selected transformative innovative solutions to face marine litter and microplastics pollution.

Another aim of this event is Supporting The Mediterranean Sea Basin for the Implementation of the [EU Mission Restore Our Ocean And Waters](#) by fostering an innovation ecosystem and accelerating the implementation of solutions - technological, social, business, and governance - to swiftly advance towards the objectives of protecting and restoring the health of our ocean and waters.

National Stakeholders from the Italian BlueMissionMed HUB and European and International key actors will be engaged in a Multistakeholder Mobilisation and Mutual Learning session where they will provide their feedback and input to facilitate the further solutions' adoption and implementation with the aim of achieving the EU Mission objectives.

The 4th International Workshop on Marine Litter Monitoring, Removal and Circular Economy is registered as a side event of the EU Green Week 2024 edition.
